# Co znajdziesz w tym rozdziale?

Krótki wstęp z informacjami o producentach, produktach lub ważne informacje z następnego rozdziału.

W tym rozdziale znalazły się uchwyty marek **Tulip, Marella i Hettich**. Są one uporządkowane według rodzaju uchwytu (metalowe, rustykalne, drewniane itp.) oraz według marki. Oprócz informacji o wykończeniu powierzchni, znajdziesz również informacje o materiale, z którego wykonane są uchwyty.

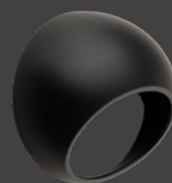

## Uchwyty

Uchwyty są funkcjonalnym dodatkiem do mebli oraz ich ozdobą. W różnych kształtach rozmiarach oraz wybarwieniach nadają się do różnych typów mebli. Najczęściej mocowane są do frontu mebla za pomocą dwóch śrub. Do kompletu występują często gałki w podobnej formie jak uchwyty.

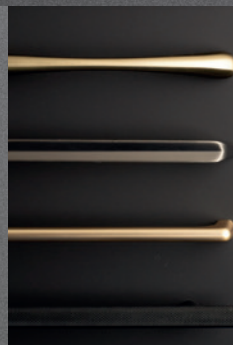

## Gałki

Gałki są rodzajem uchwytów mocowanych do mebli najczęściej za pomocą jednej śruby. Można je stosować w dowolnym rodzaju mebli ale sprawdzają się przy mniejszych frontach. Często używa się ich do kompletu z większymi uchwytami o podobnej formie jak gałki.

## Metalowe uchwyty i gałki - materiał

Uchwyty oraz gałki wykonane są z aluminium, stopu cynku lub stali nierdzewnej. Są trwałe, mocne i pasują do różnego rodzaju wnętrza.

## Uchwyty rustykalne i porcelanowe

Metalowe i porcelanowe (lub z porcelanowymi dodatkami) uchwyty (rączki i gałki) imitujące wyglądem uchwyty produkowane na początku XIX wieku. Porcelana może mieć specjalne pęknięcia lub różne motywy graficzne. Design uchwytów jest klasyczny lub rustykalny.

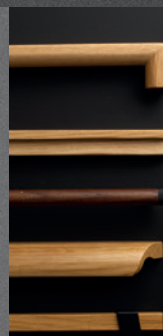

## Uchwyty wpuszczane i profile uchwytowe

Uchwyty metalowe lub drewniane montowane w wyfrezowanych otworach w powierzchni lub w krawędzi frontów. Nie wystają, idealnie sprawdzą się do wąskich przestrzeni lub do frontów przesuwnych, gdzie licują się z frontem.

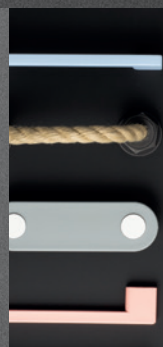

## Drewniane uchwyty i gałki

Jak sama nazwa wskazuje, uchwyty te wykonane są z różnych rodzajów drewna. Mogą być naturalne, bejcowane lub lakierowane. Nadają się do każdego rodzaju mebli, ale nie lubią pomieszczeń gdzie występuje duża wilgotność oraz wysoka amplituda temperatury w pomieszczeniu.

## Uchwyty dziecięce i plastikowe

Bezpieczne, zabawne, kolorowe, takie są uchwyty przeznaczone do pokoi dziecięcych, przedszkoli, szkół lub placówek dla dzieci. Choć nie są tak trwałe jak uchwyty metalowe, są bezpieczne w pomieszczeniach dla dzieci.

## Wieszaki

Najróżniejsze typy i kształty, metalowe lub drewniane, z montażem ściennym lub montażem pod płytą, wszystkie te wieszaki znajdziesz w tym rozdziale.

# Które produkty są TOP?

Przygotowaliśmy wybór najciekawszych produktów, jakie można znaleźć w katalogu.

## Subtelny uchwyt Cub

13.21

**Uchwyt Cub marki Tulip** przeznaczony jest dla wszystkich poszukujących uchwytu, który dobrze dopasuje się do mebli. W katalogu znajdziesz go w 3 kolorach i 3 rozstawach.

Więcej nowości w rozdziale

## Wyrafinowane nowości z metalu

Do kolekcji metalowych uchwytów dodaliśmy 4 delikatne modele, które w subtelny sposób podkreślają wyrafinowanie mebli. Można je znaleźć pod nazwami Tonk, Kink, Envel i Mount.

13.20

## Kira – ozdoba garderoby

Jeśli coś jest dekoracyjne i jednocześnie funkcjonalne, to podoba nam się jeszcze bardziej. Takim uchwytem jest Tulip Kira. Dzięki szerokiemu zakresowi wymiarów można go wykorzystać do stolika nocnego, komody, a nawet do dużej szafy.

13.30

## Drewniane, inspirujące, funkcjonalne

Wielokrotnie rozszerzaliśmy kolekcję drewnianych uchwytów Tulip. Prezentowane w tym katalogu uchwyty będą przez długi czas elegancką ozdobą i praktycznym dodatkiem każdego mebla.

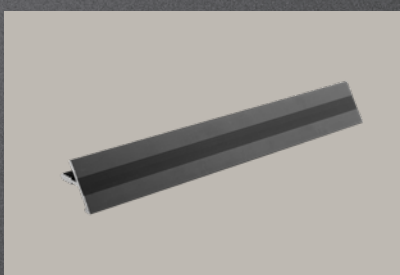

13.78

## Gant & Ener

Nie zapomnieliśmy też o wieszakach. Tu również przygotowaliśmy nowości. Na przykład wieszaki Tulip Gant i Ener charakteryzują się innowacyjnym i prostym systemem montażu.

13.93

## Wszechstronna Ria

Uchwyt Ria jest dość niepozorny ale niezwykle wszechstronny. Zakrywa skosy, optycznie zawęża fronty, ma długość 2,9 m, więc nie trzeba się martwić o wielkość frontów, a dzięki temu, że jest metalowy, przetrwa wiele lat.
